*D*ear Resident:

On behalf of the Wards Corner Task Force, we would like to cordially invite you to attend a public workshop to discuss the future of the Greater Wards Corner area. The City has hired Wallace, Roberts & Todd (WRT), a national urban design and planning consulting firm, along with Hammer Siler George real estate consultants and Kimley-Horn transportation consultants, to assist the City in developing a comprehensive plan for the area. The consulting team previously made an introductory presentation at a meeting of the Wards Corner Task Force and have conducted several interviews with key stakeholders in the area to help identify important issues facing Wards Corner.

The next step in the process is a Community Workshop to be held on Monday, September 22, 2003 at 7:00 p.m. in the Granby Elementary School Auditorium. The consultants will brief the community on the purpose of the plan and will share their research and work on the project to date. WRT will also facilitate a discussion to refine the current vision for the area and to seek further community input into the process.

Please do not miss this opportunity to provide input into the future of your community. We look forward to seeing you there.

Sincerely,

Councilman Barclay Winn

Councilman Don Williams
